Aesthetic Non-invasive Treatments

Our facial aesthetic treatments use state of the art, innovative technology designed to reduce the signs of ageing. Lift, firm and tone with these treatments for long lasting results.

Morpheus8

Adored by celebrities such as Kim Kardashian; Morpheus8 is a micro needling device that remodels and contours the face using radiofrequency energy to create smoother, sleeker skin. A wide range of concerns can be treated such as acne scarring, loose or sagging skin of the face, jawline and neck.

Micro-Needling & Radiofrequency

60 Minutes

The Technology:

Clinically proven fractional technology designed to remodel facial tissue. Unique patented design allows for the uniform distribution of radiofrequency energy through bipolar arrays of pin electrodes and results in localised heating and coagulation of the tissue that is in direct contact with the pins.

Lumecca

A powerful and effective treatment that reduces and removes specific pigments in the skin, from redness and spider veins to discoloured patches. This highly popular anti-ageing treatment is a quick fix treatment with visible results after the first session!

Intense Pulsed Light (IPL)

From 60 Minutes

The Technology:
Lumecca is a breakthrough intense pulsed light (IPL) that delivers up to 3X more energy in the 500-600 nm range to improve efficacy for vascular and pigmented lesions. It is optimised for clinicians to treat a variety of skin types and conditions with just a single session.

Forma

A fast and gentle way to address the signs of ageing; such as fine lines, wrinkles and loose skin. By harnessing the power of radiofrequency and thermal energy, the Forma produces amazing results without any invasive procedure necessary.

Radiofrequency

From 60 Minutes

The Technology:
Radiofrequency (heat energy) stimulates collagen and elastin production to immediately plump, tighten and lift. The results are immediately visible: reduced puffiness, defined contours and restored skin firmness.

Ultimate Lift & Rejuvenate Facial

Instantly refresh and lift dehydrated and tired skin. Hydra-Diamond exfoliation removes dead cells and deeply cleanses the skin. Lactobionic acid and Papaya act on blackheads and blocked pores, to even out skin tone and reduce congestion. A cocktail of Antioxidants and Hyaluronic Acid are then pumped into the skin - using high concentration jets of oxygen - to rehydrate the skin and smooth out fine lines and wrinkles. Rejuvenating radiofrequency and non-surgical lifting microcurrents are passed over the skin to stimulate production of new, healthy cells, collagen fibres and toned muscles.

120 Minutes

Lifting Power Facial

Our non-invasive lifting power facial uses advanced technology to deeply clean, sculpt and lift. A sonic deep cleanse followed by the most advanced face lift technology PureLift Pro+. Combined with the restorative powers of our specialised serums to visibly tone and tighten the skin.

Purelift Pro-microcurrent

45 Minutes

Radiofrequency Collagen Facial

Tone, contour and brighten the skin with our Vitamin C enriched exfoliation, using radiofrequency to effectively improve skin tone and texture. The skin is left feeling plump, firm and hydrated.

Radiofrequency

45 Minutes

Express Power Facial

Ultrasonic and micro current to instantly exfoliate, hydrate and infuse the skin to leave the skin instantly brighter, awakened and uplifted.

Microcurrent

Dermalux

Hailed as the ‘perfect complexion boost’, Dermalux instantly boosts the complexion to restore vitality and glow. Dermalux uses unique combinations of clinically proven Blue, Red and Near Infrared wavelengths to boost collagen production, boost hydration, calm redness and irritation, and banish blemish causing bacteria.

RED - Anti-ageing and skin rejuvenating aimed at reducing fine lines and wrinkles and improving skin texture. Application of the light boosts blood flow to the area being treated, improving skin health for a youthful and radiant glow.

BLUE - Targets blemish and acne prone skin. The blue light kills the acne causing bacteria, reducing the number of breakouts and reducing congestion, the size of pores and the chance of breakouts.

LED Phototherapy

20 Minutes

Collagen Boosting Hydra-Diamond Non-Surgical Face Lift

Advanced technology combining microdermabrasion, lymphatic drainage, Antioxidant infusion and deep muscle stimulation. Reducing puffiness, improving skin tone and firming skin.

Microcurrent & Microdermabrasion

75 Minutes

Non-Surgical Face Lift

Give your face a tighter and more youthful appearance. With a non-invasive facelift, we can restore the lost volume while tightening up loose skin that has sagged under the effects of gravity. The result is lifted and refreshed skin with a tighter and smoother texture.

Microcurrent

75 Minutes

Non-Surgical Face Lift & RF Facial

This facial begins with exfoliation followed by a high potency vitamin infusion, micro current and radiofrequency to lift and firm both the muscles and skin around the face and neck.

Radiofrequency & Microcurrent
